

QUICK GUIDE AND SERVICE BOOK

GARIA GOLF, VIA, MONACO

G A R I A

## 1. INTRODUCTION

Congratulations on your new Garia vehicle.

The Garia is the ultimate luxury golf and leisure car; a unique combination of performance, versatility and elegance – designed to move you.

This Quick Guide is only for reference on how to use the Garia, always refer to the Garia User's manual to obtain all information and safety related issues.

This Quick Guide covers the Garia Golf Car, the Garia Via, and the Garia Monaco.

We encourage you to read the User's Manual before taking the Garia into use, always store this Quick Guide in a easy accessible place. we encourage you to read the manuals thoroughly before operating your Garia.

If you have additional questions regarding operation or maintenance, please contact your local Authorized Garia Service Dealer for support.

**Thank you for choosing Garia.**

## 1.2 Speed switch

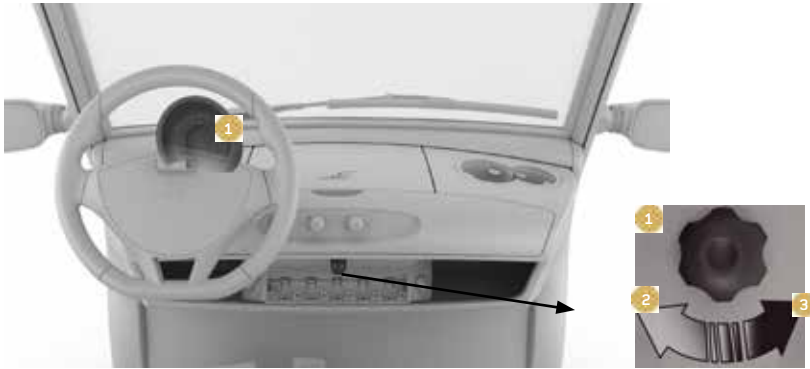

Fig. 1.2

Fig. 1.3

Fig. 1.4

### Speed switch functions:

The Garia VIA / Garia Monaco is equipped with a speed switch to change between Garia ECO mode and Garia SPORT mode, making driving on golf courses more convenient, since the vehicle accelerates softer and reaches a speed of 16 mph / 25km/h. Change the switch to SPORT mode and the vehicle can reach a speed of 25mph / 40km/h, and the vehicle will accelerate faster.

The speed switch position is in the cluster in the lower section of the display, where the term ECO is displayed when the switch is turned to the left, in ECO mode. The term SPORT will be displayed when the switch is turned to the right, in SPORT mode.

## 1.3 Instrument cluster notifications

### 1.3.1 Critical battery level

Fig. 1.5

Critical battery level: This appears in cluster when the vehicle has a minimum range left and can only drive in limp mode at 4 Mph / 6 Kph. The vehicle requires charging urgently.

### 1.3.2 Currently no messages

Fig. 1.6

When pressing the right button on the cluster it is possible to review all active messages.

### 1.3.3 Do not turn vehicle off for 2 min

Fig. 1.7

This message is important to respect. The vehicle requires a “cooldown” period of 2 minutes, due to seriously heavy use. After two minutes the vehicle will return to normal operation. The reason for this function is to avoid overloading of important electrical components in the drive system.

### 1.3.4 Reduced Power

Fig. 1.8

Reduce speed for a short period of time, and the vehicle will return to normal operation.

### 1.3.5 Service due

Fig. 1.9

The service due notification will appear when the vehicle has reached the milage or hour limit. Please contact the nearest Garia dealer to get the service carried out accordingly.

### 1.3.6 Battery discharge indicator

Fig. 1.10

Icon	Led's	State of charge in percent %	
	● (red) ● (yellow) ● (green) ● (light green) ● (dark green)	80 %	100 %
	● (red) ● (yellow) ● (green) ● (light green)	60 %	80 %
	● (red) ● (yellow) ● (green)	40 %	60 %
	● (red) ● (yellow)	20 %	40 %
	● (red)	5 %	20 %
	● (red) (half-filled)	1 %	5 %

## 1.4 Ignition Switch

Fig. 1.11

### Ignition switch functions:

**OFF:** Most electrical applications are disabled. The refrigerator will function for an additional two hours (the timer function is adjustable, please contact your dealer for more information), if activated whilst the ignition switch is turned to "R.N.F.". The interior light and the 12V plug will still be functioning. The key can be removed in this position.

**R:** Reverse. When the accelerator pedal is engaged, the parking brake releases automatically. The vehicle reverses. All electrical functions are in function (affecting battery power). **Note:** To reverse, turn key to N before turning to R. The reverse warning indicator is activated when vehicle is reversing (except Monaco).

**N:** Neutral. The parking brake is engaged when the vehicle comes to a full stop. The vehicle can be temporarily parked, all electrical applications are in function (affecting battery power).

**F:** Forward, when the accelerator pedal is engaged, the parking brake releases automatically. The vehicle drives forward. All electrical functions are in function. (affecting battery power).

## WARNING

Never push the accelerator pedal when turning the ignition key. The vehicle may move suddenly if not operated correctly.

## 1.5 Driving, accelerating

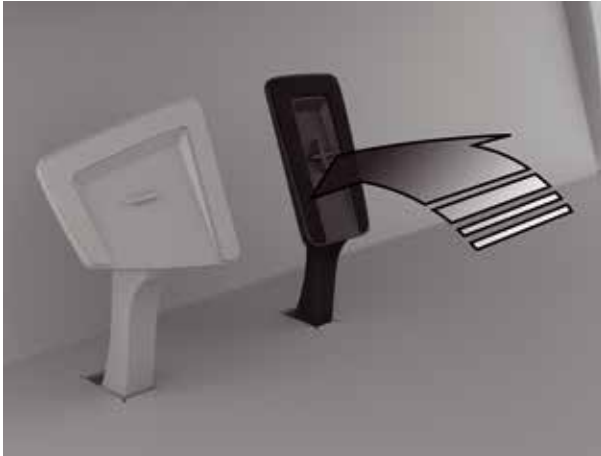

Fig. 1.12

1. Turn Main power switch to "ON"
2. Push the brake pedal and select "N", and then "F" for driving forward (or "R" for reversing).
3. Make sure that no people or obstacles are in the risk of being injured or damaged by the vehicle. Push the accelerator pedal very gently and the vehicle will start to move. Always accelerate carefully.

### **⚠ CAUTION**

Never bring the vehicle to a halt while using the accelerator. Always use brakes to prevent the vehicle from moving.

### **NOTE**

When accelerator pedal is engaged, the parking brake will release automatically.

## 1.6 Stopping, braking

Fig. 1.13

To brake or stop the vehicle, push the brake pedal carefully. The vehicle will gently come to a halt. When the vehicle has come to a full stop, the automatic parking brake will engage. The vehicle will not move until the accelerator pedal is engaged. If an emergency occurs, the brakes are designed to handle an emergency braking incident. However, after any emergency braking incident, carry out a brake maintenance check. Please consult a qualified repair shop. Garia recommends that maintenance is provided by an Authorized Garia Service Dealer.

### **⚠ WARNING**

Any damage or malfunction on the braking system can result in severe injury or death. Always make sure that the brakes are fully functioning.

## 1.7 Rough terrain driving

Fig. 1.14

Always make sure that the greatest precautions are taken when driving in rough terrains. The vehicle's ground clearance is 6.5 inches (approx. 165 mm). Always drive slowly and always be ready to stop. Rough terrain driving can cause situations that are damaging to the vehicle, therefore always drive very cautiously. Avoid driving in hilly areas and at tilted angles. The weight distribution of the vehicle can cause it to tip unexpectedly when placing the vehicle at excessive tilted angles. The vehicle is not constructed for rough terrain use and this should be avoided as much as possible.

Fig. 1.15

## 1.8 Hill hold and roll back

The Garia features a hill hold function which keeps the vehicle at steady speeds when starting and stopping on a slope.

When stopping, the motor will keep the vehicle steady for two (2-3) seconds before the parking brake engages.

If the ignition switch is not turned off, the vehicle will remember the amount of torque added when stopping, and apply the same amount of torque when starting again to ensure a smooth start and a limited roll back.

Should motor stall appear, the parking brake will engage immediately and the controller will need to be reset with the key switch to "OFF", following to "N" and finally to "F" to start driving forward (or "R" for reversing).

## 1.9 Emergency braking

If the key switch is turned into the "OFF" position when the vehicle is moving, motor braking will stop the vehicle immediately. This type of braking can cause personal injury. The parking brake will be engaged when the vehicle has come to a full stop.

**NOTE:** This type of braking is for **emergency use only**; should the service brake fail. It can potentially cause personal injuries or damage to the drive train or tires of the vehicle.

After any emergency braking incident, please contact a qualified repair shop for a brake safety and function check. It is recommended that maintenance is provided by an Authorized Garia Service Dealer.

### WARNING

#### **Risk of personal injury!**

Brake lights will not come on when performing emergency or motor braking. Only perform this type of braking when you can closely follow the traffic around you, and only in emergency situations.

Any damage to or malfunction of the braking system can result in severe injury or death. Always make sure that the brakes are fully functioning.

## 2. Tow switch

Fig. 2.1

To activate the towing function, the switch in the battery compartment must be engaged. This can only be done by using the additional key which came with the car at its delivery. Please note, this key is not the same as the ignition key. It is recommended that the key is removed from the keyhole whenever the towing function is not activated. Doing this prevents unauthorized removal of the vehicle.

To be able to activate the towing function, the ignition switch on the steering column must be turned to the "N"-position. Furthermore it is necessary that the main power switch in the battery compartment is turned to the "ON"-position. Select "TOW" to activate the towing function.

Activating the towing function discharges the battery. **Do not store vehicle with towing switch turned to "TOW", since this eventually will discharge the batteries and permanently damage the batteries.** Fully discharging the batteries shortens the life of the battery. Activating the towing function disables the ignition information, meaning that the vehicle will not drive.

Always make sure to take the best safety precautions when releasing parking brake. Activating the towing switch disables most electrical appliances in the vehicle.

### ⚠ WARNING

The vehicle can roll unexpectedly at all times when the parking brake is released, even on level ground. This can cause a severe accident or death.

## 2.1 Towing without battery power

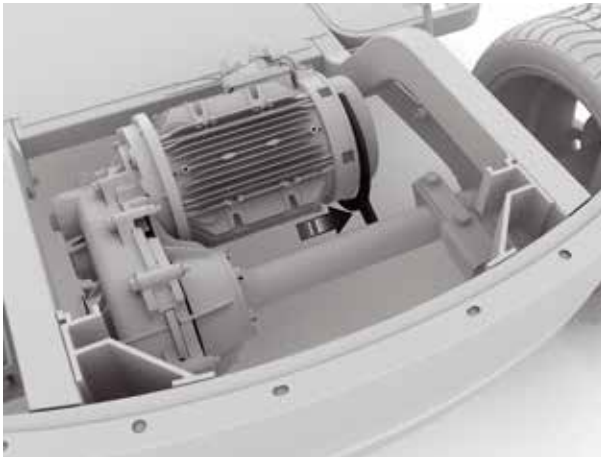

Fig. 2.2

If vehicle batteries are completely discharged or malfunctioning and there is no possibility of activating the towing function through the towing switch, the parking brake can be released by manually engaging the lever on the motor as illustrated above. Push the lever to release the parking brake and the vehicle can be towed. Access the lever from the underside of the vehicle or by removing the load area floor. Once the towing session has taken place, it is of great importance to activate the parking brake before vehicle is put into service.

Always take the greatest safety precautions when releasing parking brake. If unsure on how release the parking brake manually it is recommended that you contact the nearest Garia dealer or service shop.

### **⚠ WARNING**

The vehicle can roll unexpectedly at all times when parking brake is released, even on level ground. This can cause a severe accident!  
Activate automatic parking brake function before vehicle is put into service!

## 2.2 Towing hook

Fig. 2.3

If the vehicle requires to be towed, the towing hook can be mounted underneath the front body as illustrated above. (Towing hook is standard equipment on all vehicles)

### **⚠ WARNING**

Use caution when towing a vehicle.

Do not attempt to tow vehicle with any other device than an approved automotive towing rope.

Do not tow vehicle on highways or other public roads not specified for Golf Car use. Only tow one vehicle at a time.

The vehicle can roll unexpectedly at all times when parking brake is released, even on level ground. This can cause a severe accident.

Do not exceed 10 mph (16 km/h) while towing.

## 2.3 Hauling

This Garia Golf Car is not constructed for hauling. This includes other vehicles, trailers or other devices. Failure to heed this warning will void all applicable warranties.

## GARIA GOLF CAR AND GARIA MONACO LIMITED WARRANTY (ONLY APPLICABLE IN EMEA)

Garia hereby warrants all parts of your new Garia Golf car / Monaco, which was purchased or leased from Garia or an authorized Garia dealer and which is normally operated in the EMEA, subject to the exclusions described below.

### 1. WARRANTY:

The warranty period begins on the date that the Garia Golf car / Monaco is initially purchased by you from Garia or an authorized Garia dealer. The warranty coverage's and periods are as follows:

#### Basic Coverage:

The basic warranty coverage period is 36 months or 6,000 miles, whichever comes first.

This warranty covers any repairs needed to correct defects in material or workmanship of all parts and components of your new Garia Golf Car / Monaco except for those excluded below (or if the part is covered by one of the separate coverage's described below, that specific coverage applies instead of the basic coverage).

#### Frame coverage:

The frame warranty coverage period is 60 months or 12,000 miles, whichever comes first.

This warranty covers any repairs needed to correct defects in material or workmanship in the frame of your new Garia Golf Car / Monaco, except for those excluded below.

#### Original equipment battery coverage:

The original equipment battery warranty coverage period is 36 months or 20,000 ampere hours (as recorded by the on board control unit), whichever comes first.

Note: replacement batteries are covered under the Garia parts & accessories limited warranty on page 6.

This warranty covers any repairs needed to correct defects in material or workmanship of the original equipment battery installed in your Garia Golf Car / Monaco, except for those excluded below.

During the warranty periods described above, any authorized Garia dealer or distributor will, free of charge, repair or replace, at Garia's exclusive option, any part determined by Garia to be defective, subject to the restrictions and exclusions contained in this warranty document. If Garia elects to repair or replace a defective part, Garia may at its discretion provide a factory reconditioned part or a new part from an alternate supplier. All parts used in repairs under this warranty will themselves be warranted for the remainder of the applicable warranty period. All parts replaced under this warranty immediately become the property of Garia.

## 2. GENERAL EXCLUSIONS:

Excluded from this warranty shall be any failures caused by:

- (a) Modifications, alterations or changes that affect the Garia Golf car / Monaco's weight distribution, stability, performance, condition or operation or which alter the output of the car's battery charger.
- (b) Installation of any parts or accessories that are not Garia original equipment or are not approved by Garia in advance of installation.
- (c) Damages resulting from an accident or collision.
- (d) Abuse or neglect of the car or any included or related component, or use that is contrary to the uses, precautions and specifications set forth in the User's Manual.
- (e) Failure to carry out routines and maintenance as set forth in the User's Manual, including but not limited to charging schedules, maintaining water levels in the battery, failure to tighten battery hold downs and terminals, proper tire inflation and checking for corroded battery cables.
- (f) Damage due to improper storage or transportation. Or
- (g) Acts of nature, wars or terrorism, or other such events that are unrelated to the manufacturing or maintenance of the car.

Additionally, this warranty does not cover the repair of any Garia Golf car / Monaco or any part of a golf car on which the odometer or on board control unit has been altered, or the odometer or on board control unit repaired or replaced, and the actual Monaco mileage or ampere hours of the battery cannot be correctly and readily determined.

## 3. SPECIFIC ITEM EXCLUSIONS:

In no event will this warranty cover any of the following:

- (a) Adjustments or repairs made due to normal wear and tear after the first 180 days of the warranty period.
- (b) Routine maintenance items set forth in the User's Manual.
- (c) Cosmetic deterioration due to exposure or normal wear and tear.
- (d) Electrical components that are susceptible to fluctuations in current and voltage.
- (e) Tires. Or
- (f) Costs incurred by you in connection with the transportation of the car to a Garia dealer or distributor.
- (g) Loss of vehicle use, lost time, inconvenience.

## 03 WARRANTY INFORMATION

---

### 4. WARRANTY TERMINATION:

If Garia, in good faith and after reasonable investigation, determines that the information submitted in connection with a claim under this warranty is false or intentionally misleading, this warranty shall immediately terminate and all pending repairs or replacements hereunder shall be at your sole cost and expense.

### 5. CUSTOMER RESPONSIBILITIES:

In order to receive the benefits of this warranty, you must:

(a) Provide proof of the date of purchase of the Garia Golf car / Monaco, either by (i) completing the warranty registration form at the time of the original purchase or (ii) providing a copy of the original sales invoice; (b) Provide notice of any warranty claim to an authorized Garia dealer or distributor within 14 days after discovery of the defect giving rise to such claim; and (c) Promptly present the golf car for repair, during regular business hours, at the Garia dealer or distributor to which notice of the warranty claim was given.

### 6. TRANSFERABILITY:

To transfer any remaining warranty from the original purchaser to any subsequent purchaser, the subsequent purchaser must present the Golf car / Monaco for inspection and warranty registration at an authorized Garia dealer or distributor within 10 days after the transfer of ownership. The authorized Garia dealer or distributor may charge a reasonable administration/registration fee.

### 7. DISCLAIMER, LEGAL RIGHTS:

Garia makes this warranty in lieu of all other warranties, express or implied. All implied warranties, including those for merchantability and fitness for a particular purpose WHICH EXCEED THE DURATION OF THIS WRITTEN WARRANTY are hereby expressly disclaimed by Garia and excluded from the scope of this warranty.

Garia further disclaims and excludes from this warranty all liability for incidental, consequential, REMOTE AND SPECIAL damages, including but not limited to damages for loss of use, to the maximum extent permitted by applicable law.

Some countries do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from country to country.

NOTE: All specifications subject to change without notice.

GARIA GOLF CAR AND VIA LIMITED WARRANTY  
(ONLY APPLICABLE IN US)

Garia hereby warrants all parts of your new Garia golf car / Via, which was purchased or leased from Garia or an authorized Garia LSV dealer and which is normally operated in the United States, subject to the exclusions described below.

## 1. WARRANTY:

The warranty period begins on the date that the Garia golf car / Via is initially purchased by you from Garia or an authorized Garia dealer. The warranty coverage's and periods are as follows:

### Basic Coverage:

The basic warranty coverage period is 36 months or 6,000 miles, whichever comes first.

This warranty covers any repairs needed to correct defects in material or workmanship of all parts and components of your new Garia golf car / Via except for those excluded below (or if the part is covered by one of the separate coverage's described below, that specific coverage applies instead of the basic coverage).

### Frame coverage:

The frame warranty coverage period is 60 months or 12,000 miles, whichever comes first.

This warranty covers any repairs needed to correct defects in material or workmanship in the frame of your new Garia golf car / Via, except for those excluded below.

### Original equipment battery coverage:

The original equipment battery warranty coverage period is 36 months or 20,000 ampere hours (as recorded by the on board control unit), whichever comes first.

Note: replacement batteries are covered under the garia parts & accessories limited warranty on page 6.

This warranty covers any repairs needed to correct defects in material or workmanship of the original equipment battery installed in your Garia golf car / Via, except for those excluded below.

During the warranty periods described above, any authorized Garia dealer or distributor will, free of charge, repair or replace, at Garia's exclusive option, any part determined by Garia to be defective, subject to the restrictions and exclusions contained in this warranty document. If Garia elects to repair or replace a defective part, Garia may at its discretion provide a factory reconditioned part or a new part from an alternate supplier. All parts used in repairs under this warranty will themselves be warranted for the remainder of the applicable warranty period. All parts replaced under this warranty immediately become the property of Garia.

## 2. GENERAL EXCLUSIONS:

Excluded from this warranty shall be any failures caused by:

- (a) Modifications, alterations or changes that affect the Garia golf car / Via's weight distribution, stability, performance, condition or operation or which alter the output of the car's battery charger.
- (b) Installation of any parts or accessories that are not Garia original equipment or are not approved by Garia in advance of installation.
- (c) Damages resulting from an accident or collision.
- (d) Abuse or neglect of the car or any included or related component, or use that is contrary to the uses, precautions and specifications set forth in the User's Manual.
- (e) Failure to carry out routines and maintenance as set forth in the User's Manual, including but not limited to charging schedules, maintaining water levels in the battery, failure to tighten battery hold downs and terminals, proper tire inflation and checking for corroded battery cables.
- (f) Damage due to improper storage or transportation. Or
- (g) Acts of nature, wars or terrorism, or other such events that are unrelated to the manufacturing or maintenance of the car.

Additionally, this warranty does not cover the repair of any Garia golf car / Via or any part of a golf car / Via on which the odometer or on board control unit has been altered, or the odometer or on board control unit repaired or replaced, and the actual golf car / Via mileage or ampere hours of the battery cannot be correctly and readily determined.

## 3. SPECIFIC ITEM EXCLUSIONS:

In no event will this warranty cover any of the following:

- (a) Adjustments or repairs made due to normal wear and tear after the first 180 days of the warranty period.
- (b) Routine maintenance items set forth in the User's Manual.
- (c) Cosmetic deterioration due to exposure or normal wear and tear.
- (d) Electrical components that are susceptible to fluctuations in current and voltage.
- (e) Tires. Or
- (f) Costs incurred by you in connection with the transportation of the car to a Garia dealer or distributor.
- (g) Loss of vehicle use, lost time, inconvenience.

## 4. WARRANTY TERMINATION:

If Garia, in good faith and after reasonable investigation, determines that the information submitted in connection with a claim under this warranty is false or intentionally misleading, this warranty shall immediately terminate and all pending repairs or replacements hereunder shall be at your sole cost and expense.

## 5. CUSTOMER RESPONSIBILITIES:

In order to receive the benefits of this warranty, you must:

- (a) Provide proof of the date of purchase of the Garia golf car / Via, either by (i) completing the warranty registration form at the time of the original purchase or (ii) providing a copy of the original sales invoice;
- (b) Provide notice of any warranty claim to an authorized Garia dealer or distributor within 14 days after discovery of the defect giving rise to such claim; and
- (c) Promptly present the golf car / Via for repair, during regular business hours, at the Garia dealer or distributor to which notice of the warranty claim was given.

## 6. TRANSFERABILITY:

To transfer any remaining warranty from the original purchaser to any subsequent purchaser, the subsequent purchaser must present the golf car / Via for inspection and warranty registration at an authorized Garia dealer or distributor within 10 days after the transfer of ownership. The authorized Garia dealer or distributor may charge a reasonable administration/registration fee.

## 7. DISCLAIMER, LEGAL RIGHTS:

Garia makes this warranty in lieu of all other warranties, express or implied. All implied warranties, including those for merchantability and fitness for a particular purpose WHICH EXCEED THE DURATION OF THIS WRITTEN WARRANTY are hereby expressly disclaimed by Garia and excluded from the scope of this warranty.

Garia further disclaims and excludes from this warranty all liability for incidental, consequential, REMOTE AND SPECIAL damages, including but not limited to damages for loss of use, to the maximum extent permitted by applicable law.

Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

NOTE: All specifications subject to change without notice.

## 4. Maintenance

### 4.1 Service Intervals

In order to keep your Garia Car in the best condition, Garia has prepared a specially designed maintenance program to ensure that the vehicle constantly lives up to the highest standards.

The following service actions need to be performed according to the specified intervals to uphold the warranty.

- 12 months / 360 hours service
- 24 months / 720 hours service
- 36 Months / 1080 hours service

This quick guide and service book contains the space for service stamps and service and repair remarks. Always be sure to remind your local dealer/repair shop to apply stamps and comments in the suitable spaces on the following pages after each service interval.

Besides the above mentioned service intervals, additional daily, weekly and monthly checks are required, which can be performed by the owner of the vehicle to uphold the quality and functionality of the vehicle. Please see the user's manual regarding self-service to ensure correct maintenance of your Garia Car.

If the vehicle is malfunctioning in any way not specified in this quick guide and service book or in the user's manual, please consult a qualified repair shop. Garia recommends that all repairs are carried out by an Authorized Garia Service Dealer. To locate your nearest dealer, please visit the website at [www.garia.com](http://www.garia.com)

### 4.2 Service symbol in Instrument cluster

This vehicle is equipped with a memory function that reminds the user to service the vehicle regularly. This symbol will be reset after each service by an Authorized Garia Service Dealer and appears again when the next service is due. Always make sure that the vehicle is maintained according to the service indicator in the instrument cluster or at the intervals specified on the following pages, whichever comes first. Failure to follow this will void all applicable warranties.
